177 US Climate Mayors commit to adopt honor and uphold Paris Climate Agreement

IN RESPONSE TO WITHDRAWAL OF TRUMP

Paris, Washington DC, 05.06.2017, 21:03 Time

USPA NEWS - The President's denial of global warming is getting a cold reception from America's cities. As 177 US Mayors representing 51 million Americans, we will adopt, honor, and uphold the commitments to the goals enshrined in the Paris Agreement. We will intensify efforts to meet each of our cities' current climate goals, push for new action to meet the 1.5 degrees Celsius target, and work together to create a 21st century clean energy economy.

The President's denial of global warming is getting a cold reception from America's cities.

As 177 US Mayors representing 51 million Americans, we will adopt, honor, and uphold the commitments to the goals enshrined in the Paris Agreement. We will intensify efforts to meet each of our cities' current climate goals, push for new action to meet the 1.5 degrees Celsius target, and work together to create a 21st century clean energy economy.

We will continue to lead. We are increasing investments in renewable energy and energy efficiency. We will buy and create more demand for electric cars and trucks. We will increase our efforts to cut greenhouse gas emissions, create a clean energy economy, and stand for environmental justice. And if the President wants to break the promises made to our allies enshrined in the historic Paris Agreement, we'll build and strengthen relationships around the world to protect the planet from devastating climate risks.

The world cannot wait. "Sand neither will we.

Signed,

Updated signatories as of 4pm PT on June 2, 2017

Climate Mayors (aka, Mayors National Climate Action Agenda, or MNCAA) is a network of 188 U.S. mayors representing over 54 million Americans in red states and blue states working together to strengthen local efforts for reducing greenhouse gas emissions and supporting efforts for binding federal and global-level policy making. Climate Mayors recently released an open letter to President Trump to oppose his actions thus far against climate action. In January, 30 Climate Mayors issued an EV RFI to show automakers and manufacturers that 114,000 of their cities' cars and trucks could be electrified
